

September 3, 2009

Dear Parent/Guardians,

We were notified today by Xcel Energy that a new gas line will be installed along the east side of Peach Way and continue along the utility easement located on the East side of the upper playing field. Barriers will be installed to ensure student safety.

The west side of Peach Way traffic flow will not be impacted. However, we are requesting that all drivers proceed with caution in this area.

Excel Energy will begin work on Sept 8th and continue through October 1st. Please be assured that this will have minimal impact on routine school activities and that all safety precautions will be taken.

Thank you for your cooperation.

Kent Burger
Principal
